SUMMARY

Computer Science Engineering student with a strong foundation in software development, problem-solving, and computer science fundamentals. Experienced in building end-to-end applications through academic and personal projects, with a focus on creating scalable and user-centric solutions. Demonstrates leadership, teamwork, and initiative through technical event management and campus ambassador roles. Passionate about learning emerging technologies and contributing to impactful software products.

EDUCATION

Chandigarh Engineering College, Landran

2023 – 2027*

Bachelor of Technology in Computer Science Engineering - CGPA: 8.16

SAS Nagar, Mohali, Punjab

Pragya Bharti Public School

2021 – 2023

Senior Secondary Education (Class XII) - 79.4%

Alipur, Manpur, Gaya, Bihar

Pragya Bharti Public School

2020 – 2021

Secondary Education (Class X) - 93.2%

Alipur, Manpur, Gaya, Bihar

COURSEWORK / SKILLS

- | | | | |
|--------------------------------|----------------|--------------------|-------------------|
| • Data Structures & Algorithms | • DBMS and SQL | • Operating System | • Web Development |
| | • OOPS Concept | • Data Analytics | • SDLC |

PROJECTS

MediFly – Hyperlocal Healthcare Quick-Commerce Platform | *Java, Spring Boot, MySQL, REST APIs, JWT*

- Engineered RESTful APIs using Java and Spring Boot achieving sub-100ms response times, validated through load testing across a 5-role ecosystem (User, Pharmacy, Pharmacist, Rider, Admin).
- Implemented JWT-based authentication with role-based access control, ensuring secure and isolated data access per user role and reducing unauthorised access risk.
- Built a salt comparison engine that maps generic drug compositions across pharmacy inventories, enabling users to find equivalent alternatives when a branded medicine is unavailable.
- Developed a Prescription Vault module allowing users to securely upload and store prescriptions, with role-based retrieval for pharmacists to verify orders requiring authorisation.
- Engineered an auto-renew feature for chronic medication orders, triggering scheduled re-orders via a cron-based scheduler and notifying users before prescription expiry.
- Designed modular service components to improve scalability and maintainability.

TECHNICAL SKILLS

Programming: Java, C++, SQL

Frameworks & Backend: Spring Boot, Spring MVC

Data & Analytics: Data Analysis, Basic Statistics

Databases: MySQL

Tools: Excel, Git, GitHub, VS Code

Web Technologies: REST APIs, JWT

EXTRACURRICULAR

TRYST, IIT Delhi | *Campus Ambassador (Remote)*

2024

- Promoted national-level tech fest; coordinated registrations and liaised between organizing committee and student participants.

Techniche, IIT Guwahati | *Campus Ambassador (Remote)*

2025

- Led outreach campaigns and managed participant onboarding, demonstrating self-driven initiative and cross-team coordination.

Parivartan 2025 | *Main Head, Technical Events (On-Campus)*

2025

- Directed all technical events; organized “Ideathon” with 300+ participants, demonstrating leadership, problem-solving, and cross-functional management.

CERTIFICATIONS
